Summary

Detail-oriented and Colorado-licensed Physician Assistant with over 6 years of hands-on clinical experience, now transitioning into the medical-legal consulting and expert witness field. Demonstrated expertise in analyzing complex medical data, interpreting clinical standards of care, and communicating findings with clarity and precision. Skilled in case review, medical documentation analysis, and providing objective, evidence-based opinions. Brings a strong foundation in healthcare communication, critical thinking, and multidisciplinary collaboration—essential qualities for supporting legal teams in both plaintiff and defense contexts. Committed to integrity, accuracy, and delivering high-quality medical legal insights.
